bluenxt ConsulTech

CORPORATE BROCHURE

BLUENXT

The Intelligence Architecture *Company.*

Where intelligence becomes outcomes.

bluenxt connects strategy, work, workforce, technology and execution into one intelligent system.

WHO WE ARE

We architect intelligence at work to create *10X value.*

bluenxt integrates research, architecture, digital solutions, intelligent platforms, Agentic HR, capability building and managed execution — so organisations think better, decide faster, adapt continuously and deliver measurable outcomes.

Purpose · Vision · Mission

Purpose	Vision	Mission
Architect intelligence that creates outcomes	**People, work and intelligence thrive together**	**Create possibilities every day**

Our DNA

- Create new standards and benchmarks
- Create possibilities for people and organisations to thrive
- Win-Win-Win mindset
- Continuous by design
- Deliver today. Foresee tomorrow.

THE BLUENXT PROMISE

One company. *Six* connected capabilities.

Architecting intelligence. Delivering outcomes.

Six connected capabilities. One integrated model. Multiple ways for clients to start and scale — from a single productized solution to a full, continuously supported transformation.

01	**Productized Digital Solutions**	Ready-to-use solutions that prove value from day one.
02	**Transformation Consulting 365**	A continuous transformation partnership, year-round.
03	**Workforce Intelligence Platform**	The intelligence layer above your systems of record.
04	**Agentic HR**	Governed HR agents that automate, augment and orchestrate.
05	**bluenxt Academy**	Future-ready capability through applied learning.
06	**Next-Generation Managed Services**	Human + digital + AI, delivered as outcomes.

PROOF & SCALE

Real depth. Real IP. *Real delivery.*

A global intelligence architecture company built to move intelligence from concept to working capability — across strategy, work, workforce, skills, technology, agents, learning and execution.

The case for change

33%
of enterprise applications will include agentic AI by 2028
Source: Gartner, 2024

60–70%
of employees' time is spent on activities that generative AI and other technologies could automate
Source: McKinsey, 2023

WHY CHANGE NOW

Every enterprise must become *digital and future-of-work-ready.*

Enterprises must deliver more with less amid continuous change, evolving skill requirements, AI-enabled work and rising workforce expectations. Four shifts are redrawing the enterprise.

01
Work
From jobs to dynamic work

Tasks, projects, roles and agents are becoming the new units of work design.

02
Workplace
From a place to potential

Experience, enablement, purpose, collaboration and wellbeing shape performance.

03
Workforce
From headcount to capability

Value comes from the total capability of people, ecosystems, technology and agents.

04
HR
From process to outcomes and experiences

HR designs experiences, builds capability and delivers measurable outcomes.

BEING DIGITAL

Being digital means connecting what is *disconnected...*

Organisations may look digital on the surface, yet still struggle to turn strategy, knowledge, learning, AI and transformation into continuous value. Six disconnects hold them back.

01
Strategy is disconnected from execution
Ambitious strategies do not always translate into daily work, priorities and ownership.

02
Knowledge is disconnected from work
Expertise exists, but is difficult to discover, validate, reuse and apply in the flow of work.

03
Learning is disconnected from capability
Training activity increases, but capability does not shift because learning is not tied to real work.

04
AI is disconnected from context
AI tools operate without enterprise knowledge, governance, workflow integration or business context.

05
Decisions are disconnected from evidence
Critical decisions depend too much on individual judgement and repeated analysis.

06
Transformation is disconnected from sustained execution
Projects end, governance fades and organisations repeatedly restart similar transformation efforts.

bluenxt connects insight, architecture, technology, capability and execution into one value system.

Digital maturity is achieved when organisations continuously discover opportunities, redesign how work gets done, enable execution through technology, build capability and deliver measurable outcomes.

Discover · Architect · Enable · Embed · Execute

INTELLIGENCE ARCHITECTURE

...connecting the disconnects into an *intelligent enterprise.*

bluenxt turns the six disconnects into one connected system in which structure, work, workforce, technology and execution operate together.

Five intelligence architecture principles

01

Intelligence must be designed

Organisational intelligence must be intentionally architected.

02

Everything must be connected

Structures, work, workforce, technology and execution work as one system.

03

Humans and AI complement each other

AI accelerates analysis; humans provide context, meaning and accountability.

04

Execution creates value

Architecture matters only when it improves outcomes and business impact.

05

Learning never ends

Every project, decision and outcome strengthens enterprise capability.

The maturity journey — from fragmented silos to a continuously improving intelligent enterprise

Stage 01
Silo
Fragmented data, systems and ownership.

→

Stage 02
Integrated
Connected data, processes and governance.

→

Stage 03
Dynamic
Adaptive structures and responsive operations.

→

Stage 04
Agentic
Human + AI execution at scale.

→

Stage 05
Intelligent Enterprise
Capability, decisions and value improve continuously.

WHAT MAKES US UNIQUE

Not just different — *uniquely built* to turn intelligence into outcomes.

Many can advise. bluenxt architects intelligence and delivers it — connecting what others leave disconnected.

One connected architecture

One of the few firms that architects strategy, organisation, work, workforce, technology and execution as one connected system — not siloed, one-off interventions.

Six capabilities under one roof

Research, IP, productized solutions, intelligent platforms, Agentic HR and managed delivery reinforce each other — most firms offer only one or two.

Architecture plus execution

We design, build and run — architecture backed by delivery, agents and a 365-day partnership, not recommendations that gather dust.

Real IP, not slideware

30,000+ skills, 5,000+ job success profiles and 100+ governed HR agents — proprietary depth that turns strategy into working capability.

Human + AI, governed by design

Agentic HR with people, governance and safeguards built in — augmenting human judgement while preserving human accountability.

Outcomes that compound

A 10X value ambition that is continuous by design and always on — creating value that compounds rather than resetting with every project.

WHAT WE OFFER

Six ways to start — *one* way to scale.

Begin with a single productized solution or an end-to-end transformation partnership. Every capability plugs into the same intelligence architecture — each is detailed on the pages that follow.

01 **Productized Digital Solutions**

02 **Transformation Consulting 365**

03 **Workforce Intelligence Platform**

04 **Agentic HR**

05 **bluenxt Academy**

06 **Next-Generation Managed Services**

OFFERING 01

01

Productized Digital Solutions

Ready · Configurable · Outcome-led

Pre-built, configurable digital solutions for focused HR, workforce and transformation challenges — reducing blank-sheet design and accelerating proof of value.

60+ ready-to-deploy solutions | 11 solution categories | Pay-as-you-go · Subscription

11 solution categories

01 HR Health & Maturity
- HR Health Diagnostic
- HR Maturity Index
- Function Effectiveness Review

02 Organisation & Work Architecture
- Organisation Design Diagnostic
- Work Architecture Builder
- Job Success Profiles

03 HR Strategy & Transformation
- HR Strategy Builder
- Transformation Roadmap
- HR Operating Model

04 Governance, Risk & Compliance
- HR Governance Framework
- Policy Architecture
- Risk & Control Library

05 Metrics & Workforce Insights
- HR Command Centre
- Metrics Architecture
- Workforce Analytics

06 Process & Service Transformation
- Process Reinvention
- Service Catalogue
- Employee Journey Redesign

07 Workforce & Skills Intelligence
- Skills Architecture
- Workforce Planning
- Capability Heatmaps

08 Talent & Career Intelligence
- Career Path Engine
- Succession Intelligence
- Talent Review

09 Performance & Rewards
- Goal Library
- Performance Architecture
- Rewards Framework

10 Learning & Capability
- Learning Portfolio Builder
- Role Pathways
- Capability Diagnostic

11 Experience & Engagement
- Experience Diagnostic
- Engagement Pulse
- Action Planning

OFFERING 02

02

Transformation Consulting 365

Diagnose · Architect · Implement · Sustain

A continuous transformation partnership — not episodic advice — with architecture and execution across HR, work, workforce, skills and governance throughout the year.

Six transformation domains | 365 execution cycle | One integrated partner

Six transformation domains

01 Organisation & Work Architecture

- Org Design & Health
- Work & Job Framework
- Job Success Profiles
- Project & Gig Workforce
- Capability & Assessment
- Change & Transition

02 Skills-Based Workforce Strategy

- Strategic Workforce Planning
- Skills Architecture
- Nationalisation
- Digital Workforce Integration
- Workplace Strategy
- Workforce Analytics

03 Integrated Talent Management

- Talent Acquisition
- Career & Mobility
- Learning & Development
- Leadership
- Succession
- Performance
- Experience

04 Total Rewards & Recognition

- Compensation Architecture
- STI & LTI
- Pay Equity
- Benefits & Wellbeing
- Recognition
- Market Intelligence

05 HR Operating Model & Agentic HR

- Operating Model Design
- Agentic HR Architecture
- Capability Building
- Process Automation
- Shared Services

06 HR Operations, Tech & AI

- Core HR
- Payroll
- Employee Services
- HR Tech Strategy
- AI & Automation
- Integration
- Data Governance

Detailed 365 cycle → Diagnose → Design → Build → Implement → Integrate → Transfer → Improve

OFFERING 03

03 Workforce Intelligence Platform

Visible · Connected · Intelligent

The intelligence layer above your systems of record — visibility, diagnostics, scenario planning and AI-enabled decisions in the flow of work.

Six connected platforms | One intelligence layer | No lengthy foundation phase

Six connected platforms, one intelligence layer

01
InHRsight
Health & intelligence in real time

Diagnostics | Predictive Analytics | Governance | Strategy Cascade | HR Brand Intelligence

02
ORBIT
Design the org, model the future

Org Design Studio | Automation Analyzer | Workforce Planning | Scenario Modelling | Work Decomposition

03
TalentXler
Talent on a living skills graph

Skills Graph | Career Pathways | Gap Analytics | Talent Matching | Internal Marketplace | Forecasting

04
AchievHR
Performance, continuous

OKR & Goal Alignment | Performance Analytics | Rewards Integration | Continuous Feedback | Calibration

05
OneClickHR
HR in a conversation

HR AI Chatbot | Onboarding Orchestrator | Nudges | Workflow Automation | Self-Service | Analytics

06
HRMS
One governed record

Core HR & Records | Leave & Attendance | Clean Data | Payroll Coordination | API-First Integration

OFFERING 04

04 Agentic HR

Automate → Augment → Orchestrate

Governed, ready-to-run HR agents that remove repetitive work, support human judgement and coordinate outcomes — with a marketplace of 100+ agents spanning the HR lifecycle.

100+ HR agents | Governed marketplace | Human-in-the-loop

01 · Automate

Remove repetitive work through 24/7 execution, workflow automation and compliance checks.

02 · Augment

Support human judgement through recommendations, drafting and next-best-action guidance.

03 · Orchestrate

Sense, predict and coordinate action across HR using live signals, scorecards and connected workflows.

The agent marketplace — HR in a conversation, not a portal

bluenxt Agentic HR · Agent Marketplace

- INTELLIGENCE STRATEGY AGENT — Turns workforce data into HR strategy & priorities.
- TALENT ACQUISITION AGENT — Sources candidates, supports screening and coordinates hiring with less manual effort.
- PRE-ONBOARDING AGENT — Runs documentation & readiness before day one.
- PERFORMANCE AGENT — Supports goals, feedback, manager action & development.
- ENGAGEMENT AGENT — Senses sentiment, predicts risk & triggers timely action.
- SELF-SERVICE AGENT — Resolves policy & HR queries in the flow of work.

Explore 100+ agents

OFFERING 05

05

bluenxt Academy

Know → Apply → Create → Grow

Build future-ready capability through learning, practice, coaching and applied transformation — skills-based pathways tied to real work and verified capability.

3,000+ trained in AI | 30,000+ skills | Applied & evidence-led

Four ways to build capability

Courses, Programmes and Certifications

Executive programmes, transformation journeys, future skills labs and certification pathways — delivered through public, cohort-based, on-demand and customised enterprise formats.

Coaching & Mentoring

One-to-one and group coaching, expert mentors, leadership support, practitioner guidance and applied development journeys.

Experiential Learning

Virtual labs, live client challenges, simulations, action-learning projects, real assignments and portfolio-building practice.

Thought Leadership & Research

Blue Books, original research, benchmarking, industry observatories, future-of-work insights and practitioner communities.

Capability architecture · Skills-based pathways · Success-profile alignment · Assessment & gap analysis · Personalised development plans

OFFERING 06

06

Next-Generation Managed Services

Operate · Automate · Improve

Human expertise, digital platforms and governed AI capacity deliver accountable, SLA-governed outcomes — from employee-lifecycle services to Agent-as-a-Service.

Outcome-based delivery | Human + agent model | Scalable capacity

Three service lines, one partner

01

Managed HR Services

SLA-governed HR operations that run the employee lifecycle with visible human accountability

HR Operations | Talent & Learning Ops | Analytics | Transformation PMO | Platform Ops

02

HR Digital Buddies

Always-on agents, delivered as a service and configured to your policies and workflows, are provisioned, monitored and governed by bluenxt

Query | Action | Nudges | Knowledge | Workflow

03

Group Medical Insurance

Advisory and end-to-end administration delivered in partnership with appropriately licensed insurers and brokers

Benefit Design | Benchmarking | Procurement | Renewals | Claims

BLUENXT SOLUTIONS

Features, advantages, benefits and *the resulting shift.*

How each of the six capabilities creates value — and the shift it delivers for your organisation.

SOLUTION	FEATURES	ADVANTAGES	BENEFITS	SHIFT
01 **Productized Digital Solutions**	Modular, configurable, faster to launch	Less blank-sheet design, lower friction	Quicker insight & proof of value	One-off consulting → scalable deployment
02 **Transformation Consulting 365**	Architecture + execution, year-round	One integrated partner	Faster mobilisation, stronger capability	Project → partnership
03 **Workforce Intelligence Platform**	One connected intelligence layer	Fewer blind spots	Better, faster decisions	Data → action
04 **Agentic HR**	Governed, ready-to-run agents	Greater capacity, speed and consistency, with humans in the loop	More done, better decisions	Tools → outcomes
05 **bluenxt Academy**	Skills-based, applied learning	Learning tied to real work	Verified, future-ready capability	Knowledge → capability
06 **Next-Generation Managed Services**	Integrated human, digital and AI capacity	SLA-governed, accountable	Scalable capacity, continuous improvement	Outsourced tasks → accountable outcomes

HOW WE ENGAGE

One connected path, from diagnosis to *compounding outcomes.*

A single integrated model that moves from insight to execution — and keeps improving.

01 — Discover

Clarify priorities, establish the evidence base and assess maturity

→ Shared business case

02 — Architect

Design the integrated future state

→ Clear target model

03 — Enable

Configure solutions, platforms, agents and data

→ Working capability

04 — Embed

Build ownership, skills and adoption

→ Sustained adoption

05 — Execute

Operate, govern, measure and improve

→ Compounding outcomes

10X
Value created through compounding outcomes

365
Continuous transformation support

24/7
Always-on digital and agent support

1
Integrated partner — from diagnosis to execution

LEADERSHIP & CLIENTS

Experienced leadership. *Multidisciplinary* delivery.

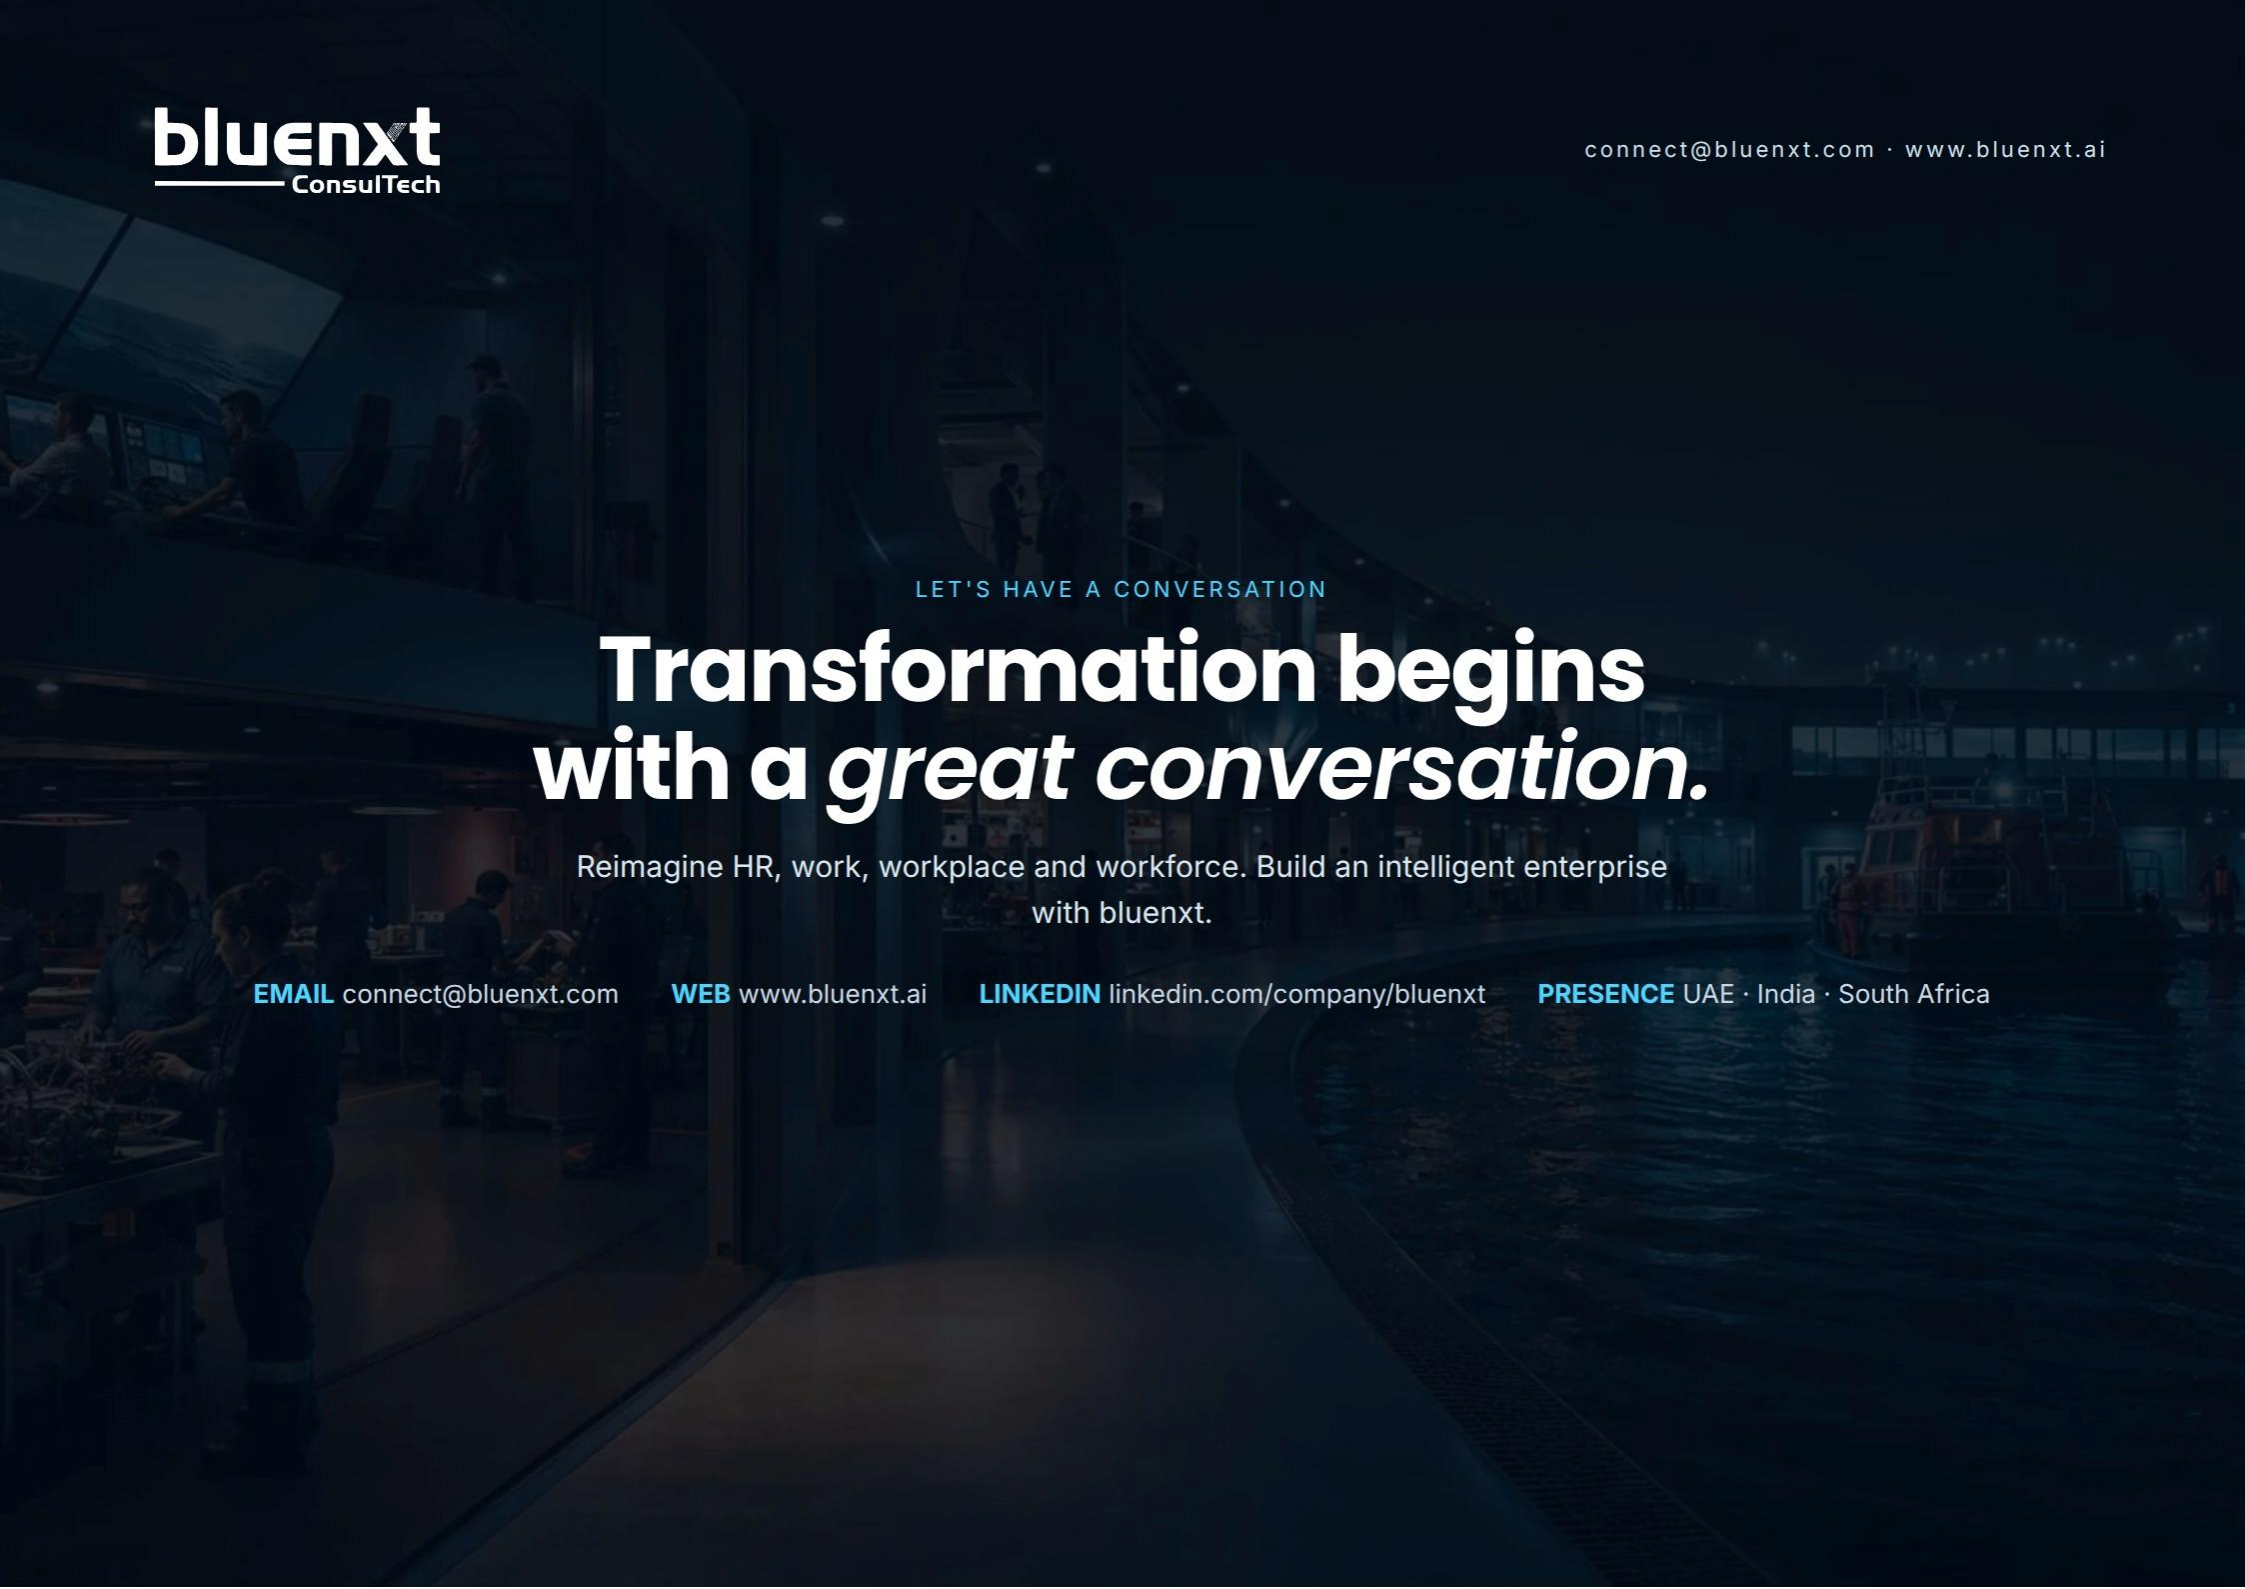

- 30 years of experience in HR transformation, organisation design, total rewards, digital HR and AI-enabled HR
- Former Group Head, HR Transformation, Digital and Analytics — ENOC
- Former Deputy CHRO — ADNIC
- Former Managing Consultant — Hay Group/Korn Ferry
- Forbes Human Resources Council (US) since 2022
- Named among the 50 Most Influential HR Leaders in the Middle East for three consecutive years
- Co-founder of the NHRDN Dubai Chapter — an HR community of 2,500+ members

Representative organisations served

ADNOC · ENOC · ADNIC · ADIB · Al Hilal Bank · First Gulf Bank · DP World · Mubadala · Dolphin Energy · Etihad Rail · Abu Dhabi Ports · Etisalat · du · Aldar · Tata Steel · Emirates Steel

Representative organisations served by the founder and consulting team in previous and current professional roles. Their inclusion does not necessarily imply a current client relationship with bluenxt.
